Documenting Medical Necessity of Laboratory Services

October 2024 Edition

Medicare Administrative Contractor
Jurisdiction E

This document is provided as an informational service to Labcorp accounts. The document contains certain Local Coverage Determinations issued at various times by the Medicare Administrative Contractor (MAC) and National Coverage Determinations issued by the Centers for Medicare and Medicaid Services. The information compiled herein is as of October 1, 2024. There can be no representation or warranty as to the accuracy or completeness of the information or that use of this information will comply with the local or national policies. To ensure the accurate and appropriate use of the information, it is recommended that the MAC be consulted. Primary sources (i.e. MAC publications, notices, and advice) should be consulted prior to the use of this information for purposes other than for submitting diagnosis codes to LabCorp. This is particularly important since information is often affected by ongoing developments.

Medicare Medical Necessity

The Centers for Medicare and Medicaid Services (CMS) requires MACs to establish policies to ensure the medical necessity of services being paid for by the Medicare program. CMS itself established national policies and effective November 25, 2002, implemented the National Coverage Determinations (NCDs). MACs will approve payment only for those particular test procedures when they have determined them to be medically necessary for the patient. As a result, a claim submitted for payment of a test on a local or national list without a specific diagnosis code (ICD-10-CM) that indicates medical necessity based upon the local or national policies will result in denial of payment for these services. This policy applies to all Medicare Part B providers of clinical laboratory services.

CMS in conjunction with the National Center for Health Statistics (NCHS) presented guidelines for diagnosis coding. In part these guidelines state:

ICD-10-CM are to be used at their highest level of specificity, e.g.,

- Assign 3-digit codes only if there are no 4, 5, or 6-character codes within that code subcategory,
- Assign 4, 5, and 6-character subcategory codes only if there is no 7-character extension code for that category
- Assign 7-character extension code for those categories where it exists.
- Assign a "X" placeholder code(s) if a 7-character extension code is needed and there are no 4, 5, or 6 characters within that subcategory.

ICD-10-CM is composed of codes with either 3-7 characters. Codes with 3 characters are included in ICD-10-CM as standalone codes or as the heading of a category of codes that are further subdivided by the use of fourth, fifth, and sixth characters and a seventh character extension which provide greater specificity. The first character of a three-character category is always a letter (A-Z); the second and third characters may be numbers or alpha characters; and the fourth through seventh characters can be any combination of letters and numbers. In instances when a letter or number is not an option for the fourth, fifth, or sixth characters, the letter "X" is used as a placeholder to allow future expansion without disturbing the coding structure.

The MAC, Noridian Healthcare Solutions, has established specific prepayment medical necessity documentation requirements for certain laboratory tests. These local tests plus the national ones are listed on the following pages. If you have any questions regarding the policies listed in this document, please contact the Noridian Healthcare Solutions Medicare Part B office at 855-609-9960.

Noridian Healthcare Solutions will not pay for the listed tests unless the claim is accompanied by an appropriate diagnostic code. For your convenience, we have developed this document from information published by Noridian Healthcare Solutions or CMS to provide you with a list of medically acceptable diagnostic codes for each of these tests.

So that we can properly bill the appropriate party or MAC, we ask that you include an ICD-10-CM diagnosis code on the test request form when ordering each of these tests for beneficiaries. We do ask that you include the specific ICD-10-CM code(s) rather than a descriptive diagnosis on each patient. It is critical that the diagnosis codes that you provide are consistent with those documented in the patient's record.

Determining Necessity of Advance Beneficiary Notice (ABN) Completion*

Diagnose. Determine your patient's diagnosis.

1. **Document.** Write the diagnosis code(s) on the front of the requisition.
2. **Verify.** Determine if the laboratory test(s) ordered for the patient is subject to Local Coverage Determination or National Coverage Determination. This information can be located in the policies published by the MAC, CMS, or www.Labcorp.com/MedicareMedicalNecessity.com
3. **Review.** If the diagnosis code for your patient **does not** meet the medical necessity requirements set forth by Medicare or the test(s) is being performed more frequently than Medicare allows, an ABN should be completed.

*An ABN should be completed for all tests that are considered investigational (experimental or for research use) by Medicare.

Payment Denials and Advance Beneficiary Notices

The Medicare program will allow the laboratory to bill the patient for denied limited coverage services only if an Advance Beneficiary Notice (ABN) is completed, signed and dated by the patient, and forwarded to the laboratory prior to testing. Please provide the signed ABN with the original order. It is the physician's responsibility to ensure that the beneficiary receives and signs an ABN to accept financial responsibility if Medicare does not pay for these services.

ABNs may be obtained from your LabCorp representative.

Policy Updates

Labcorp will continue to provide you with information regarding specific coverage limitation policies of the MAC and CMS, in the event that new policies are issued or existing ones are changed or clarified.

Although all health care providers are being affected by these types of policies, we are very sensitive to the challenges these changes bring to you and your patients. Please be assured that we will continue to work to lessen the impact upon you and your patients.

Contact your local billing representative if you have questions regarding this information.
